

Local Line, 2015 - 2017

Front-End Developer

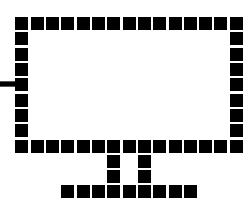

- First developer and sole front-end resource
- AngularJs, Material, REST
- Worked with a designer to design and implement streamlined storefronts for use by farmers, restauranteurs, and consumers alike

- Developed a custom solution for seamlessly stacking modal dialogs in AngularJs, closing a functionality gap in the framework with a solution that prompted the SRED evaluator to suggest I turn it into an open-source project

Shoptiftr Inc, 2017 - Present

Senior Developer

- Primary front-end resource for Angular 7+, Angular Material, Node.js
- Spearheaded major refactor of both API and model layers across our full stack to improve stability, ensure data integrity with validation decorators, and reduce maintenance overhead for new code
- Wrote, maintained, and enforced UI/UX standards for our apps
- Created designs for new features using Figma

Industry Professional 2009 - Present

While studying, had co-op jobs with BSM Wireless, The Sault Ste. Marie Innovation Centre, Cavera Inc, and numerous start-ups through the Communitech Business Incubator in Kitchener

University of Waterloo, 2015

BASc in Computer Engineering, Honours, Co-op

PROFICIENCIES

Angular

Angular Material, RxJS

Web Tech

HTML, SCSS, Typescript, REST, Algorithm Design, REGEX, git

Design

UI/UX, Figma, Accessibility, Mobile Scaling

Full Stack

Elasticsearch, Node.js

General

Python, Java, C/C++

Emerging proficiencies in React and NgRx
